**Electricity Supply Program in Our Village**

**What is CCA?**  
Community Choice Aggregation (CCA), is a state enabled program, which offers residents and small businesses the opportunity to receive more attractive electricity supply terms through the bargaining power of aggregation (group purchasing).

**What is the Municipality's Role?**  
The Village enabled CCA through a local law and selected a program administrator.

**Who is the CCA Administrator?**  
Joule Community Power, a division of Joule Assets, who has been authorized by the state to administer CCA programs in New York.

**Does this program replace my utility company?**  
No, Central Hudson will still be responsible for billing and responding to power outages.

**Can I participate if I already have rooftop solar or community solar or hydro?**  
Yes, you can participate!

**How will my bill look?**  
You will still receive one bill from Central Hudson, but the supply section of your bill will show the name of the alternative supplier/CCA Administrator.

**What is Opt-Out Enrollment?**  
Opt-out enrollment means that you will automatically be enrolled to participate in the CCA program unless you are already receiving supply service from an alternative supplier, have a block on your account, or take action to opt-out of the program. There is no fee or penalty for opting out. Not sure if you'll be automatically enrolled? Contact us!

time last week on the *Hudson Valley One* website entitled "Most Kingston city workers can't afford to live at Stony Run," the reporter identified four tiers of AMI limits as setting the top rent amount which tenants would be charged in each tier. This is not correct. The different AMI tiers are primarily

ly income limits based on family size by which to disqualify applicants who earn above those amounts, thereby ensuring affordable rental options remain available to those who earn less. The owners also very recently lowered the rents at Stony Run.  
Our apologies.
