Michelle retired because she worked long and hard for the Town of Gardiner and earned her retirement. After over 30 years of working for the town, an article highlighting her career, the things she has done for the town and the legacy she will leave behind should have been the focus, not inaccurate speculation on why she was retiring. All Platt's "facts" in the article are far from that. Did you even talk to her before writing your article Frances Platt? I demand that you reach out to Michelle, get your facts straight and issue a correction to the article.

PS: Congratulations on your retirement mom, it is well deserved. We are proud

Did you even ask?

Frances Marion Platt's article about the dedication of the Town of Gardiner meeting room on December 20 was an inaccurate poor attempt at journalism. I am very certain Platt never spoke to (at the time the article was written) retiring Town Clerk Michelle Mosher. I know Michelle very well and her decision to retire has nothing to do with feeling unworthy as Platt incorrectly stated.

Town of Saugerties Hudson Valley Community Power Electricity Supply Program in Our Town

What is CCA?
Community Choice Aggregation (CCA), is a state enabled program, which offers residents and small businesses the opportunity to receive more attractive electricity supply terms through the bargaining power of aggregation (group purchasing).

What is the Municipality's Role?
The Town enabled CCA through a local law and selected a program administrator.

Who is the CCA Administrator?
Joule Community Power, a division of Joule Assets, who has been authorized by the state to administer CCA programs in New York.

Does this program replace my utility company?
No, Central Hudson will still be responsible for billing and responding to power outages.

Can I participate if I already have rooftop solar or community solar or hydro?
Yes, you can participate!

How will my bill look?
You will still receive one bill from Central Hudson, but the supply section of your bill will show the name of the alternative supplier/CCA Administrator.

What is Opt-Out Enrollment?
Opt-out enrollment means that you will automatically be enrolled to participate in the CCA program unless you are already receiving supply service from an alternative supplier, have a block on your account, or take action to opt-out of the program. There is no fee or penalty for opting out. Not sure if you'll be automatically enrolled? Contact us!

time last week on the *Hudson Valley One* website entitled "Most Kingston city workers can't afford to live at Stony Run," the reporter identified four tiers of AMI limits as setting the top rent amount which tenants would be charged in each tier. This is not correct. The different AMI tiers are primarily

ly income limits based on family size by which to disqualify applicants who earn above those amounts, thereby ensuring affordable rental options remain available to those who earn less. The owners also very recently lowered the rents at Stony Run.
Our apologies.
